"Where Quality and Price Meet" Phone 36

THRESHERS REQUIRED TO FURNISH RETURNS

The Minister of Agriculture desires to draw the attention of threshermen throughout the province to the conditions under which threshing permits are issued by the department. Each registered machine owner is sent a license for the season accompanied by a blank form on which he is required to make a return to the department of agriculture showing the number of acres and the number of bushels threshed during the season. Up to the present time a considerable number of threshermen have not complied with this regulation and it is pointed out that complete returns of this kind provide the only basis on which a definite statement can be issued showing the total and average yield of the various grains produced each year in the province. In the absence of this definite information the department is in the position of having to accept estimated figures compiled in other ways. For this reason it has been found necessary to

accept the estimated figures for the present year's grain yields compiled and issued by the Dominion Bureau of Statistics. An appeal therefore is made to threshermen and farmers throughout the province to co-operate with the department in making available the fullest possible information which will be of assistance in this connection.

Announcement is made from the head office of the Alberta Wheat Pool in Calgary that the directors of this organization have definitely decided to proceed with the formation of a Coarse Grains Pool and that this will be in operation in time to handle the 1929 crop. This development, it is stated, will not necessitate any new selling organization as the coarse grains will be handled through the central selling agency of the Pool. It is pointed out that only members of the Wheat Pool will be eligible to participate in the coarse grains organization. While no definite statement is made, it is probable that oats and barley will be handled for pool members under the new arrangement.

FOX FUR INDUSTRY IN DISTRICT THRIVES

Destined to be one of the largest silver fox fur industries in the province is that located at Olds, the property of Mrs. O. L. Harmer of Didsbury.

The initial pair of animals were supplied by Montgomery Bros., Wetaskiwin, who came to this province from Prince Edward Island, the birthplace of the Canadian fox fur industry. Their foxes have taken numerous prizes at Calgary, Vancouver and other big exhibitions.

Mr. Frank Jeanot, who has charge of the farm, stated that the present pens contain 26 registered silver foxes, the farm being started in Dec. 1927. New pens have had to be built continually to accommodate the natural increase and in the near future will cover not a little amount of ground. Mr. Jeanot himself also raises a number of mink, badger, coyotes and Chin-chilla rabbits, a number of very fine specimens of these animals being viewed.

Few people are cognizant of this farm so close to our confines. It is an industry which is making rapid strides not only in this province but in other parts of the Dominion.

Mrs. Harmer is a member of the Dominion Fox Breeders Association, Ottawa, and the Alberta Fox Breeders Association, Calgary. At a recent luncheon of the Alberta Association in Calgary Mr. Carruthers, Federal Inspector of Registered Foxes, made special mention of the farm at Olds.

SHORT COURSE GIVEN FOR WEED INSPECTORS

The attention of farmers and others interested in weed control and eradication is drawn to the fact that a short course specially designed for weed inspectors will be offered at the University of Alberta by the provincial Department of Agriculture from February 25 to March 1. Instruction will be given during the course in the interpretation of the Noxious Weeds Act, in the identification of weeds and on other subjects having direct bearing on the question of weed control. The candidates who satisfactorily pass an examination at the termination of the course will be given a diploma by the Minister of Agriculture qualifying them as weed inspectors, and entitling them to recognition by those districts requiring such services. Applications for attendance at this free course should be received at the office of Fields Crops Commission, W. J. Stephen before February 22nd.

OBITUARY

Following a lingering illness, Elizabeth Bricker, wife of H. A. Bricker, 1011 Fourth Avenue West, died on Monday. Mrs. Bricker was born in Dundalk, Ontario, and came to the west in 1898 with her husband who settled in this district. Of late years Mr. Bricker has been with the provincial department of agriculture. While a resident here Mrs. Bricker was one of the most active members of the Ladies' Aid of the United Church and the Women's Christian Temperance Union. The family moved to Calgary three years ago. Mrs. Bricker is survived by her husband and two daughters, Edith and Anne, residing at home. The funeral services will be held in the United Church, Didsbury, on Thursday (today) at 2 o'clock. Rev. A. E. Hayes officiating, interment being made in the Didsbury cemetery.

FATHER AND SON BANQUET FEB. 11

The regular weekly meeting of the Tuxis Boys was held on Monday night at the home of Mr. Norman Clarke. The physical part of our program was taken up in the walk from town and back again.

A reading from the book "By an Unknown Disciple," followed by the Lord's prayer completed our devotional period. The business session was nearly all taken up with plans for the Father and Son—Mother and Daughter banquet which is to be held in the new United Church basement, Monday evening, Feb. 11th at 6:30.

Elmer Evans then took charge of the intellectual period by asking questions on parliamentary rules, some of which we were able to answer. Following this we spent a very enjoyable time playing games and performing stunts, which were conducted by Reid and Tom Clarke.

The meeting closed with a very nice lunch kindly served us by Mrs. E. Clarke. We wish to take this opportunity of thanking them again for the hospitality.

The Finance campaign which was announced last week in these columns starts on Saturday, Feb. 9th and we would ask all who are interested in Boy's and Girls' work to respond as liberally as possible. —Contributed.

DIDSBURY BONSPIEL GREAT SUCCESS

One of the largest bonspiels outside of the big urban centres commenced Tuesday last in Didsbury and at the time of going to press is still in progress. Twenty-seven rinks are competing, fifteen of these being local rinks and twelve from outside points. The big event was advertised for only two days but owing to the number of entries it is possible it will continue until tomorrow.

Williams of Crossfield is the only undefeated skip as this goes into type. Some of the local rinks are keeping up with the visiting rinks, four being in the jewellery.

WESCOTT W.I.

The Westcott W.I. held their January meeting at the home of Mrs. W. Dageforde. In spite of the cold weather there was a good attendance and a social afternoon was spent. It was decided at this meeting to send a donation of \$10 to the Wood's Christian Home in Calgary. Mrs. Perron will be hostess when the next meeting is held on Feb. 28th.

Mr. Roger Barrett was a business visitor to Calgary on Wednesday.

MASS METHODS IN CURRICULUM KILLS PERSONAL ELEMENT

Smooth operation of the big educational machine rather than the training of the individual is the effect of modern school procedure. Times have changed since education was a purely personal affair and instruction was limited to the three Rs. We now have compulsory education and attendance, and compulsory support of schools. The public provides excellent buildings that ensure healthful conditions for children; those who teach have well mastered the material to be taught and they are well schooled in the art of child training. The system has become a rather huge and perfected machine designed and developed to provide free education of the same type for ALL.

But this making a machine of the educational system has had the unfortunate effect of taking from the instruction much of the personal element. We have fixed ages for admission, unvarying subject matter, uniform text-books and assignments of work; inflexible methods of instruction and routine work into which all must fit, have been passed down as professional folk lore. Formal educational processes begin with young children, and because of mass methods, the teacher and the schools turn out a uniform product—boys and girls who can answer given questions in stereotyped fashion with standardized degrees of speed and accuracy. This uniformity of product would not be found if it were possible to develop each child's possibilities.

No two pupils are alike and recent experiments and investigations have brought home to the general teaching body a fuller understanding of the great contrasts between pupils even of the same age and grade. Although of course, experienced teachers have recognized differences in pupils and endeavored to meet the situations in the classroom, little has yet been done to grapple with the important problem of protecting pupils from the evils of mass methods of production.

Teachers themselves, as teachers, being part of the machine, suffer more perhaps from timidity and lack of initiative than from inability to follow the established routine. There is always much in the old worth retaining and innovations are not to be cherished solely because they are novel; therefore, before putting into general use any new scheme or changing the old, it should be carefully surveyed to make sure that the problem of getting back to the individual is fully understood and the solution is safe and practical. Research and experimentation aiming to provide due measure of individual instruction into the school system should be encouraged in order that the right antidote may be discovered to the evils arising from MASS PRODUCTION.

Coming Events

Whist Drive and Dance at Rugby School, Friday, Feb. 8th. Gents 75 cents.

There will be a meeting of Didsbury U.F.A. No. 12, on Monday, Feb. 11th at 1 o'clock in the Live Stock Pool Office. J. D. Thomas, Sec.

I. O. O. F. Valentine Novelty Dance, Didsbury Opera House, Friday, Feb. 15th. 05-3c

The Cheero branch of the Rugby W.I. are holding an entertainment and dance at the Melvin School on Feb. 22nd.

Imagine Clara Bow as the girl friend of the Navy! If you've admired her work before—wait till you see her in "The Fleet's in" at the movies, Didsbury, Saturday, February 9th.

JOLLY TARS IN HORNSPIPE ROLL

Only they are tar-esses, as it were, and these pretty maidens will give a massed hornspipe, as shown above, at Vancouver's first Sea Music Festival to be held January 23-26 at the Hotel Vancouver in that city under the auspices of the Canadian Pacific Railway. Miss Mary Isdale (centre) is presenting the dance and has also arranged others for the festival.

No Doubt About this Famous Cereal

SHREDDED WHEAT

High value at low cost
Ideal for Winter with hot milk.
Proved by 34 years of growing popularity
Made by The Canadian Shredded Wheat Company, Ltd.

The Noxious Weeds Menace

This is an age of conventions. They are a natural growth and outcome of the more complex and highly organized development of modern life. They are, too, a recognition of the fact that the principles and methods of co-operation are, in many ways and to a large extent, replacing the old individualistic ideas and efforts of the past. This is not to say that the value of individual responsibility and initiative has been, or is to be, discarded; rather, that in this age of rapid transportation and communication the old isolation has disappeared and peoples and nations are brought close together. They must, therefore, act as units rather than as distinct and separate entities.

This by way of introduction to a reference to a recent gathering held in Saskatchewan at the call of the Provincial Minister of Agriculture, namely, the first Saskatchewan Weed Conference. It was not a large and spectacular convention as many present-day conventions are, but in the importance of the problem it met to consider, it took second place to none. And while it was a Saskatchewan conference, its deliberations and findings were of equal value to the other prairie provinces.

The conference was summoned in recognition of the fact that weeds are making tremendous headway in Western Canada, and that some action must be taken, over and above the preventive policies of the past, if the inroads of weeds and the consequent enormous loss to the farmers and the country as a whole is to be checked.

The conference was attended not only by officials of the Saskatchewan Government, municipalities and farmers' organizations, but by Dominion Government officials, representatives of the railways, mortgage and loan companies, manufacturers, business men, merchants—in a word, every organization having a vital interest in the productive capacity and prosperity of Western Canada.

It was frankly and unanimously agreed that the whole country must be aroused and organized in a campaign for the destruction and elimination of weeds. The only alternative is a rapidly decreasing agricultural production both in quantity and quality, smaller returns to the farmer, and decreased business and prosperity for all.

The duty and responsibility of the individual farmer in the matter of keeping his own land free of weeds was in no sense minimized, but it was recognized that, human nature being what it is, some men will neglect their duty, and while they themselves suffer as a result of such neglect, they also inflict loss upon their neighbors who are doing their duty, and upon the community and country as a whole.

The need, therefore, for concerted Government and municipal action was emphasized, and the absolute necessity, in the interest of all, for more drastic control recognized.

It was realized that not only must existing weeds be brought under control and eradicated, but that much more efficient measures must be taken and greater precautions observed to put a stop to the sowing of weed seeds and the propagation of the weed plants.

It is not possible in this article to discuss all the phases of this intricate problem, but at this season of the year, when farmers are beginning to think about and plan their work for the spring, one factor may well be stressed. That is, the importance of sowing good, clean seed and not a mixture of grain, good and bad, and weed seeds.

The astounding discovery was made by the seed drill survey conducted in Saskatchewan that 70 per cent. of the seed sown in the province was lower than No. 2, due largely to the inefficient operation of farm fanning mills. In other words, while farmers and governmental authorities on the one hand are fighting weeds, the farmers in the sowing of their crops are planting thousands of bushels of weed seeds.

The first step towards victory over the weed enemy is to put an immediate and definite stop to the planting of weed seeds in prepared soil. If the propagation of weeds is continually carried on and assisted in this way, it must be recognized that the weed menace will grow, and that final victory will rest with it and not with the farmer.

The spring slogan for all Western farmers in 1929 should be: Look to your seed grain. See to it, above everything else, that it is good, clean seed. If weed seeds are sown, it is inevitable that weeds will be harvested. Remember, it is still everlastingly true in farming as in all the activities of life that, whatsoever a man soweth that shall he also reap.

During the World war a person's equilibrium was tested for flying by an elaborate turning chair.

Politeness is one of the best investments known. It pays enormous dividends.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Lieutenant-Governor Appointed

J. D. McGregor, Brandon, to Succeed Late Hon. T. A. Burrows

J. D. McGregor, Brandon, has been appointed lieutenant-governor of the province of Manitoba. Mr. McGregor succeeds the late Hon. T. A. Burrows who died in Winnipeg recently. Announcement of the appointment was made by Premier W. L. Mackenzie King at the conclusion of a meeting of the cabinet.

The lieutenant-governorship was offered Mr. McGregor several days ago, and from his home in Brandon, he announced acceptance of the post, stating that he considered the appointment as a compliment to the agricultural interests of the province rather than to himself personally.

WAS ALWAYS AILING NEVER FELT WELL

Health Restored Through the Use of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everitt Dowe, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be confined to bed. At the very best I was in an ailing condition and found it difficult at all times to do my housework. I was subject to headaches, poor appetite, breathlessness at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines, but without any good results. I had become completely discouraged and felt that I would always be an invalid. A friend strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope that they would help, where other medicines had failed. But in this, to my joy, I was mistaken. I had not been taking the pills very long when I knew they were helping me. As I continued their use I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking the pills for several months, when I again found myself a well woman, and I believe that had it not been for Dr. Williams' Pink Pills I would to-day be a helpless invalid. The pills have since been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid.

You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Silver Foxes for Italy

A number of silver foxes have been sent from Canada to ranches in the Italian Alps, where ranching conditions are stated to be ideal, and where the fox farming industry is showing a steady growth.

Exhausted from Asthma.—Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will usually stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

As a molecule of water passes through the pores of your skin it is like a man passing through a gate seven miles wide.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

New Air Service Planned

Air express and passenger service between Winnipeg and United States points will be established within a month on a tri-weekly basis, according to Capt. P. T. McCarty, president and operating manager of the International Airways, Inc., of Seattle. The service will be in co-operation with the Western Canada Airways, Limited.

He—I suppose I'm only a pebble on the beach of your life?

She—That is true, but you might stand a chance if you were a little boulder.

Minard's Liniment for the Grippe and Flu.

W. N. U. 1771

Cuticura Soothes Burning Aching Feet

Bathe the feet for several minutes with Cuticura Soap and warm water, then follow with a light application of Cuticura Ointment, gently rubbed in. For tired, hot, irritated feet this treatment is most comforting. Cuticura Talcum is cooling and refreshing.

Advances New Theory

Baltimore Physician Says Lack of Lime Makes People Irritable

More lime in the diet as a preventive for divorce was urged by Dr. George Walker, addressing the National Housewives, Inc., at Baltimore. Absence of lime, he declared, makes a woman nervous and a man cruel—hence family troubles result.

When there is every appearance of a home being wrecked Doctor Walker suggested that lime, as found in a pint of milk, added to the diet of a couple daily for two weeks in all probability would adjust matters, restore amicability and keep the home intact.

He also would add two oranges a day for each and a quarter pound of cold slaw at least three times a week.

Built To Auto Design

First British 'Plane of This Type Put on Market

Britain's first airplane to be built to automobile design has been placed on the market under the name of Simmonds Spartan light plane.

The craft has four wings, which are interchangeable in the same way that the four wheels of an automobile are interchangeable. There also is a spare wing which is carried for emergencies.

The new machine is fitted with a four-cylinder, air-cooled engine of 30-35 horse-power. It recently was tested on a non-stop flight from London to Berlin, 620 miles, in six hours.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

When the plumber died his wife took no chances. She buried his tools with him.

Shipping Sets New Mark

New Westminster Exceeds 1927 Record by Forty-five Ships

A new mark in shipping was set at New Westminster during 1928, exceeding by 45 ships the 1927 record of 153. The figure does not include the coastwise shipping, which is handled through the Department of National Revenue. The net tonnage of the ships handled through the harbor commissioners' office was 625,271 tons and the gross 984,363 tons, compared with 483,603 and 776,229, respectively, in 1927.

Protect Your Children From "Flu," Grippe

A WARNING TO PARENTS!

Flue germs are everywhere today. They reach the system through the nose and throat. Mothers can protect their children in a very simple way.

Take a saucepan of water, place it on a lamp or stove. Add a half teaspoonful of Catarrhazone to a pint of water, which is brought to a boil. Let the steam from the kettle fill the room so that the medicated air is breathed by the child. This germ-killing vapor disinfects the child's breathing organs and kills the "Flu" germs.

Catarrhazone Vapor stops cold, prevents Grippe, relieves Sore Throat, prevents Flu. Safe and efficient. Just as good for adults as for children. If you keep the air in your home disinfected with Catarrhazone Vapor you are well protected from dangerous Flu, Influenza, Grippe, and Colds. All druggists sell Catarrhazone in 50c bottles.

New Brunswick's contribution to Uncle Sam's Yuletide celebration included some 3,000,000 Christmas trees—the greatest number ever shipped from the province.

Minard's Liniment prevents Flu.

The Adirondacks contain more than 100 scenic lakes.

Demand

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

RIVALRY SEEN BETWEEN ITALY AND FRANCE

Toronto.—The Mail and Empire publishes the following special cable from Paris:

"A factor in the world naval situation which hitherto has been obscured by Anglo-American discussion of the limitation of naval armaments is the growing rivalry between France and Italy in the Mediterranean, as reflected in their building programs. For the first time much prominence is being given to this subject here and it may fairly be suspected that the British 'big navy' party is preparing to counter any suggestions for a naval holiday with the United States by pointing to the danger to British interests in European waters as necessitating more cruiser building.

Hector J. Bywater, well known naval expert in a column article in the Daily Telegraph analyzes in startling terms the French-Italian building race and speaks of the Mediterranean as "one of the main arteries of our empire."

"No neutral can hope to conduct business as usual in a zone of active warfare," he finds proceeding to pile up statistics intended to prove his contention. "That France and Italy are now in open rivalry for strategic control of the Mediterranean is the only possible inference to be drawn from recent developments.

Secures Desired Land

Veteran of C.E.F. in Siberia Files on Peace River Homestead

Peace River.—After waiting from Friday, January 18 until Monday morning, January 28, G. Turcotte, Falher, was successful in securing the land of his choice, a homestead in the Falher district that had been under lease but recently was thrown open for filing. Ten days of terrible sub zero weather with the thermometer ranging from 30 below during the day and down to almost 60 during the long nights he endured.

Turcotte did not have it all his own way for Corporal McDonald of the mounted police was on hand to prevent disorder. He ordered Turcotte to remove his hand from the door knob so that the door could be opened. Another man named Trudeau was on hand and secured it while the door was opening, but Turcotte was in the most favorable position and squeezed in first.

Studying Aircraft Device

Dominion Government May Establish Direction Finding Apparatus Service

Ottawa.—For the purpose of ascertaining what the United States is doing in the field of direction finding for aircraft by radio, Maj. W. Arthur Steel, one of the senior officers of the signals service, department of national defence, has gone to Washington, New York, and other points, to obtain information for Canada. Direction finding apparatus has been used to advantage in the operation of aircraft in several countries and the Canadian government is considering establishing such a service in the Dominion.

Has Remarkable Record

Winnipeg.—John McDougall, veteran sergeant-at-arms of the Manitoba legislature, is in indifferent health at present, and for a second time in half a century may not be well enough to attend the opening of the house on February 11. Last year he was ill too, and it was the first time in 50 years that he was unable to carry the mace on an opening occasion.

World's Largest Theatre Sold

New York.—The Hippodrome, the world's largest theatre, has been sold for approximately \$6,000,000. Although the purchaser, Frederick Brown, a real estate operator, would not disclose his plans, it was indicated that he had a new project in mind for the site, and that the theatre might be razed.

W. N. U. 1771

Aid For Civil Aviation

Flying Clubs Will Be Given Thirty-two New Planes This Year

Ottawa.—Thirty-two aeroplanes will this year be given flying clubs by the government it is estimated by flying officials in the national defence department.

Besides issuing two machines to each newly-formed organization, one extra machine is given for each one which the club members purchase themselves. The 16 clubs already in operation are each expected to buy a machine this year.

There are over 150 flying pilots in Canada with seven years' experience in the air, according to figures compiled by the national defence department in connection with applications now being received by the civil service commission for two positions as inspectors of civil aviation.

There is one vacancy at Ottawa and one at Regina. These are additions to the staff occasioned by the development of aviation. At present there are three inspectors. Their duties include the examination of prospective pilots, testing of machines for airworthiness and choice of locations for airfields.

Doukhobors Found Guilty

Ringleaders in Clash With Police Receive Jail Sentence

Grand Forks, B.C.—Eight Sons of Freedom, Doukhobor religious fanatics, were sentenced to serve six months each for obstructing police officers. They were found guilty by John A. Hutton and John M. Donaldson, justices of the peace. The fanatics offered no defence.

The fanatics were arrested and charged following a clash with 11 provincial police officers and 10 specials who sought to arrest Strepnikoff and Woiken, wanted for infringement of the School Act. The Sons of Freedom attempted to prevent the arrest of their leaders, but were overcome by tear gas bombs.

Peter Veregin, Doukhobor community head, reported to have testified in these actions, was engaged in a marketing act trial. He did not figure in the case.

Parley On Import

Preference Likely

But Reports Presented by President Coolidge Not Yet Received

Ottawa.—At the department of external affairs, it was stated that the reports presented by President Coolidge to congress on the subject of customs preferences on imports through Canadian ports have not yet been received. No diplomatic representations based on them have yet been made. The United States minister in Ottawa, however, brought the general situation to the attention of Premier Mackenzie King some weeks ago.

As President Coolidge informed the United States senate that diplomatic negotiations would begin with Canada on the matter, it is anticipated that there will be representations in the near future.

Plans Branch Line in B.C.

Nelson, B.C.—Notification to the public of its intention to apply at the coming session of parliament for charter rights to build a railroad link from Kootenay Landing to Procter, B.C., is announced by the Canadian Pacific Railway in a statutory notice. The notice issued from Montreal under date of January 29, is signed by E. Alexander, secretary.

Appointed Vice President

Winnipeg.—R. S. Law, formerly of Claresholm, Alta., has been appointed to the board of directors and to the position of first vice president of the United Grain Growers, Ltd. It was announced here by Hon. T. A. Crerar, president of the company. Mr. Law succeeds C. Rice-Jones, who held the position for the past 11 years and who resigned to enter business in his own right.

Would Try New Stunt

Detroit, Mich.—Gene Laussier, who dropped over Niagara Falls in a rubber ball July 4 says he will jump off a new 46-story building here for \$25,000, with a pair of wings of his own design.

SAYS CANADA TOO KEEN

Senator Walsh of Massachusetts is waging a campaign in congress to show the United States the amount of trade which Canada is winning from the republic. He expressed the opinion that Canada was too keen and is rapidly outstripping the United States.

Figures Show Slight Increase

Twelve Per Cent. Advance in Immigration to Canada Last Year

Ottawa.—Immigration to Canada continues to show a moderate increase over that of a year ago, the total for nine months of the fiscal year up to and including December being 144,113 compared with 128,923 for the same period in 1927. The increase is 12 per cent.

The total immigration of December amounted to 5,515 compared with 4,566 in December, 1927, an increase of 21 per cent. The month's immigration included 1,476 British, 1,544 from United States, 24 Belgians, 50 Danish, 99 Dutch, 204 Finnish, 31 French, 454 Germans, 44 Norwegians, 75 Swedish, 15 Swiss and 1,499 of other races.

Of the 144,113 immigrants who came to Canada in the last nine months 82,237 were of the farming class and 14,199 were female domestic servants.

London Awaits News

Announcement of Duke of Gloucester's Engagement Expected Shortly

London.—The Daily News said it understands that the engagement of the Duke of Gloucester, formerly Prince Henry, third son of King George, would be announced shortly. The newspaper said it was believed the duke was engaged to Lady Angela Scott, daughter of the Duke and Duchess of Buccleuch.

The Daily News understood that the announcement had been delayed because of King George's illness.

Spectators Thrilled By Parachute Jump

Two Winnipeg Airmen Brave Wind and Below Zero Weather

Winnipeg.—Braving a high north-west wind and 15 below zero weather, Flight Lieut. A. Carter and Sergt. Joe Maskell, of the Royal Canadian Air Force, thrilled 300 persons at Stevenson Aerodrome by jumping from aeroplanes with parachutes at a height of 2,500 feet.

The feat is unique in Manitoba and perhaps in Canada, considering the weather conditions.

Carter landed in a clump of trees two miles east of the point where he jumped, and a group of airmen had to rescue the parachute from the branches. Maskell also was carried far afield.

Carter's jump was the 36th of his career. He holds the record for parachute jumpers in the British Empire, having made a leap of 20,000 feet at High River, Alberta, in November, 1925.

Plan Being Endorsed

National Day of Thanksgiving for Recovery of King Is Urged

Vancouver.—A movement emanating in the province of Quebec to hold a national day of thanksgiving throughout Canada for the recovery of his Majesty King George from his recent illness, and which it was stated has the endorsement of Premier Taschereau of Quebec and other prominent men of that province, was wholeheartedly supported by Mayor W. H. Malkin and the Vancouver city council.

Winnipeg.—Endorsation of the plan to hold a Dominion-wide day of thanksgiving for the recent recovery to health of His Majesty King George was given by Mayor Dan McLean of Winnipeg.

Submits Request To League

China Wants to Protect Her People Against Opium Evil

Geneva.—The opium evil was made the occasion for another plea by China for the right to police its own territory irrespective of the nationality of offenders.

Wang King-Ky, chief representative of his country at Geneva, submitted that it was impossible to separate the narcotic and political questions so long as China was not free to protect her own people against the acts of nationals of other powers.

Carpenter Electrocutted

Winnipeg.—William Jardine, 26 a carpenter, was electrocuted at the substation of the Winnipeg Electric Company near Selkirk, Man., when his saw came in contact with a high tension wire.

TRAFFIC VIA CANADA'S PORTS NORMAL FACTOR

Washington.—Discriminatory tariffs against goods imported into the United States via Canadian ports is recommended by only one out of three government departments which reported to the senate on the diversion of United States commerce to Canadian ports. The other two found that the movement of United States imports and exports through its neighbor's ports was caused chiefly by the normal factors of international trade and transportation and nothing much could be done about it except to discuss with Canada through diplomatic channels the possibility of putting United States ports on an equal basis with Canadian ports on imports into Canada.

The majority report which remarks at the outset that Canadians are just as much concerned over the movement of Canadian export grain through United States ports was made by the departments of state and agriculture and the Interstate Commerce Commission. It was unanimous.

The minority report was made by the United States shipping board which operates at a deficit the shipping acquired by the United States government during the war. The tone of the two reports is sharply contrasted. The majority quotes statistics to show that 27 per cent. of all Canada's exports travel through United States ports while only five per cent. of United States exports travel through Canadian ports.

Coast Wants Orient Trade

Would Gain Larger Share for Canada, Says T. S. Dixon

Ottawa.—Canadian boards of trade from the Atlantic to the Pacific are interlocked in such a way as to assure immense benefits for national commerce and fruitful results from their co-operative labor, said T. S. Dixon, president of the Vancouver Board of Trade in an address at the 72nd annual meeting of the Ottawa Board of Trade.

Within the next two years, Mr. Dixon declared, Vancouver would lead an expedition of Canadian business men into the Orient in an attempt to further increase the prestige of the Dominion in the Far East and gain a larger share of Oriental trade for the manufacturers and producers of Canada.

Manitoba House To

Open February 11

Will Proceed to Take Up Business Without Usual Adjournment

Winnipeg.—The Manitoba legislature will go into session Monday afternoon, February 11, at 3 o'clock. An order-in-council fixing this date was signed by Hon. J. D. McGregor, shortly after being sworn in as lieutenant-governor.

The house will proceed with the business before it immediately after the formal opening ceremony and the reading of the speech from the throne by the new lieutenant-governor. This will be a departure from custom previously followed.

Will Not Compete

Toronto, Ont.—The ladies' high jump which was on the program of the Melrose games at New York, February 9, has been cancelled, according to a wire received by Miss Myrtle Cook. The wire said exhibitions were not permitted at these games and that Miss Ethel Catherwood has been notified to this effect. This means that Miss Catherwood will not compete in New York.

May Send Minister to States

Washington.—Negotiations for the exchange of diplomatic representatives between the United States and the Union of South Africa, were said, at State Department, to be under way. South Africa would be the third entity of the British Commonwealth to appoint a minister to Washington. Canada and the Irish Free State are the other two.

CANADIAN IDEAS IN JAPAN

When K. Hashima, superintendent of rolling stock and machinery of the Sapporo district, Japanese Government Railways, was in Canada recently studying the operations of the Canadian National Railways for the benefit of the people of his own country, he was particularly interested in the methods used in clearing snow from the track. In a letter to W. A. Kingsland, general manager of the National system's western region, Mr. Hashima expressed his thanks for the co-operation given him by A. H. Eager, gen-

eral superintendent, motive power and car equipment, Winnipeg, and A. McCowan, assistant general superintendent, car equipment. He went on to describe a new type of snow-fighting machine which he had devised from ideas given him by K. D. McLay, bridge and building master of the Canadian National Railways, Calgary division. The machine, which is the most successful of all the types tried on the Japanese railways, has been named McLay. The plow is seen here in action and the inset is a photograph of Mr. McLay.

DON'T EXPECT TO BE SICK

Why should men and women and children become sick? It is easy, of course, to blame wrong diet, faulty living and the rush and strain of modern life. But we are probably paying more attention to our diet and our habits of living today than ever before, while if we suffer from rush and strain we must also bear in mind the many helps we have at our service to enable us to meet that rush and strain. Living really much easier now than in our grandmother's time; people worked much harder then, and much longer, and reached a point of physical exhaustion that we hardly realize as possible.

It seems to us that the idea of sickness being inevitable has entered into consciousness of the race and we expect to be sick, to have our share of any illnesses that are going around, and are perhaps somewhat disappointed when we do not acquire the popular disease of the hour. People will ask each other, "Have you had the influenza at your house yet?" and we reply, "Not yet," both questioner and answerer implying that a visit from the influenza germ is to be expected. In the same way, when one has such a disease as influenza all the other members of the family expect to get it; "it's got to go through the house," we say, and some seem peeved if it does not.

What we are driving at is this, that disease is largely a matter of the mind; we think in terms of disease and hence, we get a term of disease. Serves us jolly well right, if such be the case. What we need to do is first to get a right conception of our bodies, see them as being perfect, remember that they are God-created, and that He not only intended them to be perfect, but that they ARE perfect. See perfection in yourself; refuse to admit imperfection. The natural, normal condition of the body is health, regard yourself as being normal, not abnormal, because if you are diseased you are abnormal—for the time.

Any doctor will tell you that it is not the medicine he prescribes that restores you to health when you are sick; it is Nature doing its work. It would seem to be true, per contra, that we become sick because Nature has not been on to its job, but that is never true of Nature. What happens is that we get the thought of sickness into our minds and, therefore, we get inharmonious conditions in our bodies. If we refused to entertain disease we would not have to entertain the disease; and it becomes costly entertainment. You spend a lot of money entertaining friends sometimes, but you spent a lot more entertaining any old disease. So think health, see your body as being perfect, remember there is no power in the universe greater than God, and that He is fully able to keep in health what he was created—provided you who dwell in the Temple that we call the body and which is the Temple of God, will refuse to entertain the disease thought, and will cease expecting to be sick any more. Don't expect to be sick!

WE STAND ON OUR FEET

Canada is in continual alarm at alien ownership of Natural Resources and foreign domination. Professor Taylor in the Financial Post shows

LOCAL & GENERAL

Mr. Cecil Adashead was a visitor to the southern city this week.

Mrs. V. Shantz of High River is visiting at the home of her parents Mr. and Mrs. D. Dippel.

The Frances Willard Memorial meeting will be held at the home of Mrs. (Rev.) A. E. Hayes on Thursday, Feb. 14th at 3 p. m. Mrs. Berscht will take charge of the program as given in the White Ribbon Tidings. A special offering will be taken. All ladies cordially invited.

The recent cold snap which seems to have no prospect of breaking up is reported by the weather bureau at Lethbridge to be the longest on record. In this district the thermometer reached a minimum, according to reports, of 52 below zero.

Announcement is made of a special agricultural short course which will be held at the University of Alberta from February 11 to February 22, 1929. This will be given by the teaching and investigation staff of the College of Agriculture and will provide an opportunity for the farmers of the province to obtain in a short time first-hand knowledge of the work being carried on at the University for the betterment of agriculture in the province. The course is designed to meet the needs of farmers and others who are anxious to secure this information without spending the time or the money involved in taking a complete winter's course. Lectures and demonstrations will be given in connection with soils, field and garden crops, common insect and disease pests, farm machinery, live stock,

that while foreign investors do look on Canada as a fruitful field, yet Canadian financial independence is an objective which is being realized more quickly than people realize. For every foreign dollar invested in railroad, industrial or financial securities Canadians have invested more than two dollars. Last year found Canadian investors with a firmer grip on their own resources than ever before.

Concrete examples show very clearly the trend towards financial independence. Take, for instance, the case of the two great nickel companies, which produce more than 85 per cent of the world's needs in that commodity. Eight years ago the International Nickel Company belonged to Wall Street, while its neighbor, the Mond Nickel Company, was the property of English investors. Today the whole situation has changed. Canadian buying of nickel stocks has been so heavy that a group of Canadian financiers now dominates the situation. If not in actual control, these men can largely dictate the future course of the two big Sudbury companies.

What has happened in nickel has been carried out in many other cases. A year ago the British Columbia Electric was the property of London investors. Today a large proportion of the stock in that company has passed into Canadian strong boxes. The Belgo-Canadian Paper Company was originally financed by a Brussels group. It is now Canadian owned. The Donnacona Paper Company was owned from across the line. Ownership has now crossed the border northwards. In Winnipeg recent financing has brought ownership of Western Steel Products very largely into Canada. Everywhere the trend is the same. Canada is now standing on her own feet.

poultry and common diseases of animals. It is made clear in the announcement that there are no fees, no entrance requirements and no age limits imposed on the candidates. Those interested in attending the course are asked to communicate with Dean E. A. Howes of the College of Agriculture at the University.

According to W. M. Robertson, advertising manager of General Motors of Canada at Oshawa, advertising of their products in weekly and daily newspapers would be greatly increased during 1929. Instantaneous newspapers as the backbone of the campaign, Mr. Robertson stated that "Pontiac" advertising had appeared in 81,500,000 copies of Canadian publications.

Merchants Must Not Overlook This Fact**M**

OST successful merchants have found that the most DIRECT and ECONOMIC way to reach a tremendously important market, the FARMERS—the backbone of Didsbury's and Al-

berta's basic industry—is to tell their stories in the NEWSPAPER.

Many local farmers DEPEND on the "Pioneer" for events of local, territorial and national importance—market data and other notes that INTEREST him because they AFFECT his business.

NOT to advertise in "his paper," is to OVERLOOK what usually proves to be a very FERTILE market.

Mountains Splendor Open to Motorists

A new 24-hour motor detour of 142 miles along perfect motor roads through the Canadian Rockies is announced by the Canadian Pacific Railway, which states that the trips will run every day in each direction from either Banff, Alta., or Golden, B.C., beginning on June 15 and ending on September 5. By this detour a traveler can leave the train either at Banff or Golden, stay the night at Lake Louise, and continue the motor drive next morning, rejoining the train that afternoon.

This new motor road, built by the Canadian Government through Rocky Mountain National Park and Yoho National Park, is a very magnificent one. At one point it rises to a height over a mile above sea level, while at the highest point it is nearly three-quarters of a mile higher than at its lowest level. Nearly forty mountains tower in the vicinity of the road, and gigantic glaciers, roaring rivers, deep canyons and primeval forests abound. Wild mountain game are also met with in abundance at the roadside.

Motoring in the Canadian Rockies is the tourist's keenest delight, more especially after a railway journey. For this reason a schedule has been drawn up for the season of 1928, to coincide with the arrival and departure of trains at Banff, Field or Golden.

The large touring cars used for this trip are commodious and comfortable, with facilities for hand baggage. Johnston's Canyon, 16 miles from Banff, is the first stop made going west. Here the creek

Upper right—The swirl of the fast waters of the Kicking Horse River harmonizes with the throb of the engine. Lower right—Every curve of the road reveals greater beauty such as the undisturbed magnificence of the Minniwanka Lake. Upper left—The highway is fringed with thick woods as shown in this scene, looking towards Castle Mountain.

cuts through high rock walls and is spanned at intervals by tiny rustic bridges, reminders of Japanese prints. The canyon is deep and cool, and the walk of 30 minutes is delightful.

Lovers of nature should rise early at Lake Louise to see the coloring on this gem of mountain lakes, for the glaciers and high peaks are diffused with superb shades of rose and gold. A beautiful spot on this trip is Wapta Bungalow Camp, a veritable village of camps nestling on the shore of Wapta Lake—the source of the Kicking Horse River.

The Yoho Valley is beautiful beyond imagination, a virgin country unscarred by fires. Takakaw Falls are at the end of the valley and come tumbling down in a lacy pattern almost 1,500 feet. The Yoho Camp is a few hundred yards away. Emerald Lake, seven miles from Field, is a vision of sylvan loveliness, and a Swiss chalet adds to its attractiveness. From Field to Golden the highway follows the Kicking Horse River most of the way and the scenery is spectacular, the road hugging the mountain-side, with the river 700 feet below.

Glycerin Mixture Stops Constipation

The simple mixture of glycerin, buckthorn bark, saline, etc. (Adlerika) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Brings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adlerika give stomach and bowels a REAL cleaning and see how good you feel.

H. W. Chambers, Druggist

It's not alone ambition that keeps some of us moving. The "No Parking" signs have a lot to do with it.

Sale For Worthless Horses

Montana Packing Plant Will Require Seventy Head Daily

Surplus range ponies which now are more or less worthless, may find a market at the horse meat packing plant just opened in Grand Falls, Montana. Southern Alberta has hundreds of nondescript range horses roaming the prairies, eating up valuable grass and the Great Falls plant may be in a position soon to handle many of these animals for it will require 70 head daily. The output will be shipped to Continental Europe where horse meat is a staple commodity.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says: "We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Discovers New Island

Commander R. E. Byrd in a flight over King Edward VII Land discovered a new island and 14 peaks according to a radio message from the Byrd South Pole expedition copy-righted by the New York Times and the St. Louis Post Despatch.

Use Minard's Liniment for the Flu.

It is not doing the thing we like to do, but liking the thing we have to do that makes life blessed.

Chemists are now trying to make artificial cotton from wood fibre.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes: "Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so."

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again." Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1771

WORLD HAPPENINGS BRIEFLY TOLD

The freighter Port Curtis arrived recently at Halifax from Auckland with more than 5,000,000 pounds of New Zealand butter, a record cargo.

The Rockefeller foundation has donated \$85,000 to McGill university for medical research to be paid over four years.

A treaty between the United States and Japan to aid in the prevention of smuggling of alcoholic beverages into the United States has been ratified by the senate.

Leon Trotsky, whose opposition to the policies of the Soviet's leaders in Moscow caused his expulsion from the Communist party and his exile in Turkestan, was en route to Constantinople, it was revealed in authoritative advices received at London.

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Mendicancy De Luxe

Young Englishman Stimulating Palsy Collected Large Sum Daily

In the opinion of G. K. Chesterton, complete social equality in England will not be achieved until a costermonger may wear a monocle without exciting remark. It would be interesting to have his comment on the discovery by the police of a professional beggar with a valet. A young man, only 23, he was busily engaged in putting Mr. Ford's doctrine into practice and spending his easy earnings in ways which he thought to his own advantage when the authorities evinced an acute curiosity concerning the source and extent of his finances. A country house, with completely equipped billiard room, is another of his luxuries. His income, produced by stimulating palsy, has amounted to as much as \$100 in a day. Subway travelers, observing his pathetic figure, have been deeply touched—for sums from 10 cents upward. The interruption of this enterprising mendicant's activities, just at the threshold of the prosperous holiday season, must have been especially bitter.

LONG SLEEP MAKES BABY HAPPY AGAIN

"Our baby kept waking us several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better." Baby specialists endorse Fletcher's Castoria; and millions of mothers know how this purely-vegetable, harmless preparation helps babies and children, with colic, constipation, colds, diarrhea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

Should Procure Oat Seed

Farmers of Alberta are being advised by the Provincial Department of Agriculture to make the necessary provision for securing the supply of oats for seed which they will require for their 1929 crop. The effects of frost in a number of districts are reflected in a reduction in the germinating quality of a great many of the oats threshed.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

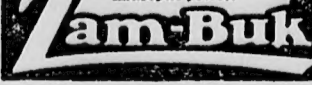

Vancouver Port Improvements

The Vancouver Harbor Board is understood to be seeking federal permission for launching a construction program involving \$5,000,000 of port improvement. The proposed works include a deep sea pier, the first unit of a cold storage plant, a coastwise pier and extensive additions to the present grain storage capacity of the port.

Minard's Liniment for Coughs and Colds.

CHILBLAINS

Zam-Buk soon allays the inflammation and swelling, allaying the pain, and soothes the maddening irritation. Where skin is broken, fevers or ulcerated, Zam-Buk is doubly valuable because of its great healing and antiseptic power.

Last Word In Cruisers

Germany's Latest Ship Makes Product of Other Countries Obsolete

According to the description which Hector C. Bywater, the Baltimore Sun's special correspondent gives, the new German armored cruiser Ersatz Prussen is a triumph of concentrated power. Keeping within the narrow limit of 10,000 tons for armored ships imposed upon her by the treaty of Versailles, Germany has constructed a ship which has the fighting effectiveness of a dreadnought, the speed of a cruiser and the hitherto unheard-of cruising radius of 10,000 miles. In addition, the new cruiser has other novel features which add immensely to its strength, and altogether it represents a production that tends to make the latest ships of other countries immediately obsolete.

How Best to Use Vicks VapoRub After the Flu

Late Winter Colds Are Doubly Dangerous This Year; Don't Let Them Get a Start

AVOID PNEUMONIA OR A SECOND ATTACK OF FLU

If you catch a fresh cold, don't keep it overnight. If possible, go home and go to bed. Take a laxative and a hot lemonade, apply hot wet towels over throat and chest until the skin is thoroughly reddened. Then rub vigorously with Vicks Spread on thickly and cover with warm flannel.

Leave the bed-covering loose, so that the vapors, released by the body-heat, may be freely inhaled. At the same time, Vicks acts through the skin like a poultice.

Repeat this treatment every four hours, eat lightly, and stay in bed until the cold is broken. Complete rest helps the body throw off the cold more quickly.

Mothers especially appreciate Vicks for the children. As it is applied externally, it can be used freely and often, without upsetting delicate digestions, as too much "dosage" is so apt to do.

Skiping Motor Age

China Is Now Turning Her Attention to Aviation

China, if the signs are read aright, is about to "jump" the automobile age and pass direct from the bullock cart and railroad to the aeroplane and all that it embraces. This is not to say that motor car manufacturers may not find a lucrative field in the 18 provinces which comprise China proper, for the automobile is making inroads there; but it is almost certain that before the motor vehicle has become to the east what it has become to the west, aviation will have found acceptance as a common means of conveyance.

For Scalds or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

The longest telephone call in the British empire is now from London to Vancouver, a distance of 7,000 miles. The charge is about \$15 a minute.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

SUNDAY SCHOOL LESSON
FEBRUARY 10

REPENTANCE AND FAITH

Golden text: Repent ye, and believe in the gospel. Mark 1.15.

Lesson: Isaiah 1.10-20; Ezekiel 18.20-23, 27-32; Mark 2.1-12; Luke 3.1-14; 15.11-24; Acts 2.32-39; Hebrews 11.1-10.

Devotional reading: Psalm 27.1-5.

Explanations and Comments

Jesus Is Sovereign and Messiah. Acts 2.14-36—Peter is speaking to Jews, and his first object is to prove that Jesus fulfilled Old Testament prophecies and expectations in regard to the Messiah, hence he tells them (verses 15-21) that the events of Pentecost which had so amazed them are but the fulfilment of Joel's prophecy (Joel 2.28-32), that at the coming of the Messiah God's Spirit would be poured forth, and old and young, men and women, bond and free, would see visions and speak divine truths.

Then Peter takes up his great theme that Jesus is the Christ, and gives three proofs. First, there are the miracles which his hearers had themselves witnessed. Second, there is the resurrection, of which they all are witnesses: God had raised Jesus from the dead to higher life and wider power. Third, there is the pouring forth of the Holy Spirit at Pentecost, which they have seen and heard: Jesus still lives and cares for His followers, for it is He who has sent the Spirit. Furthermore, the resurrection and exaltation fulfill a prophecy of David, as given in Psalm 110.1:

The Lord said unto my Lord, sit thou on my right hand, Till I make thine enemies the footstool of thy feet.

Two different Hebrew words for Lord are used in the first line, and the meaning is, Jehovah said unto the Messiah. David could not have been speaking of himself, for David did not ascend into the heavens. "Sit thou on my right hand" means, Be partaker of the divine glory and dominion. "Till I make thine enemies the footstool of thy feet" is an expression denoting complete victory, which originated, no doubt, from the ancient custom of conquerors putting their feet on their enemies' necks.

Then comes the climax of Peter's sermon: "Let all the household of Israel therefore know assuredly that God hath made him both Lord and Christ, this Jesus whom ye crucified."

"Are there any questions?" "Yes, sir. "How do you calculate the horse-power in a donkey engine?"

COMPLEXION IMPROVED

... QUICKLY
Look Felt Be Alive!
Get rid of that pasty, sallow, blemished complexion! Instead of spending many dollars on fancy creams and skin lotions, buy a 25c pkg. of Carter's Little Liver Pills and remove the constipation poisons. Your skin will be quickly cleared, and your health improved. All Druggists 25c and 75c red pkgs.

CARTER'S LIVER PILLS

FOR SALE—Fully equipped farm of seven quarter sections in the Leader district. \$5,000.00 will handle; balance half crop payments. Owner retiring. Apply to S. W. Kesten, Leader, Sask.

Alberta's Farm Wealth

The Calgary Herald says that in 1906 the Province of Alberta had a farm wealth which was estimated at \$50,000,000, while in 1927 it had jumped to \$338,161,453. And while it produced about 6,000,000 bushels of wheat in the former year, in the latter it yielded 162,000,000 bushels. We wonder what 1947 will show!

FLU

Claims Many Victims in Canada and should be guarded against.

Minard's Liniment

Is a Great Preventative, bring one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Grippe, Bronchitis, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Yarmouth, N.S.

A Real Literary Find

The New York Times says that one of the greatest rarities in United States literature, a first edition of Edgar Allan Poe's "The Murders of the Rue Morgue," has been found in a pile of old books which a second-hand dealer bought for a trifle.

Before news of the discovery became public, however, the volume was bought for \$25,000 by a New York book collector.

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection.

Scott's Emulsion

abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

Scott & Bowne, Toronto, Ont. 25-61

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

CHAPTER XIII.—Continued.

"Isn't it beautiful?" He indicated with a sweep of his arm the lake, the wooded hills and the glittering glaciers lifting their heads high to the sparkling firmament. He turned to find his companion standing with downcast eyes.

"Don't you like it?" he asked, a trifle resentfully.

Janet raised her head slowly. The limpid depths of the big brown eyes were soft and languorous in the half-light; the full red lips were dewy and tremulous; the peaceful light of the moon shone upon her radiant upturned face, giving it an ethereal glow.

"It is wonderful," she breathed. Involuntarily he moved closer. What was this inner urge? Love—feeling—emotion, or, it might be, passion?

Laughter and voices came from the trail above. Douglas with several of the visiting party emerged into the white light of the moon. Douglas called his sister's name and Janet and Donald moved up the hill to join them.

CHAPTER XIV

A week before Dominion Day men began applying for leave of absence until the exodus depleted the crew to such an extent that it was deemed advisable to shut down for a week. Donald turned to Gillis as he saw the whole crew of "redshirts" pile tumultuously on the train.

"How often do the men quit like this?" he asked rather irritably. "Every holiday," replied Gillis. Donald pondered a moment.

"That means that we may lose a week for Labour Day."

"Very likely." "Jack, do you think we could keep them here if we held some sort of celebration at the lake?"

"I believe we could," responded Gillis warmly.

"We'll do it then," declared Donald. "We've so many orders ahead

that this lay-off may force us to run a night crew."

"Did you spend all your dough, Blackie?" asked Gillis when the "redshirts" arrived back from town. "Me and Hoop-la spent about two hundred bucks, but we had three hundred dollars' worth o' fun. We ain't got enough money to buy a hummingbird a pair o' leggin's, but we sure had a helluva good time, so we ain't worryin'."

"S'pose you bought them new boots?" inquired Gillis.

Blackie forced a laugh. "Goin' to git them next time, Jack," he continued moving closer to his big boss; "say, Jack, you know that I send twenty dollars to my mother back east ev'ry month. I—I—"

"All right, Blackie," said Gillis gently, "I'll advance it to you." "Thanks, Jack, you're a good pal," commended Blackie in a relieved tone.

Donald and Gillis walked down the hill to inspect the logs in the boom, and as they walked Gillis indulged in some pointed observations. "You know, Donnie, that these loggers are game guys to come back after spendin' all their money and say: 'We had a good time, so we ain't worryin'.' The man ain't human that won't worry after spendin' in a few days the money it's taken him six months to earn swingin' an axe an' draggin' a saw. Still, they hide their remorse under a grin and tell of what a good time they've had. So many people think that loggers spend all their money for booze. Tain't so. That gang of mine give away about half their money to bums around town. I have seen Blackie give away twenty bucks at a time.

As they passed the high-rigger's little cabin, Gillis poked his head through the door. Blackie was absorbed in the task of sewing a patch on a pair of worn boots. A mournful wind blew querulously around the cabin.

"Say, Blackie, do you know what that wind is saying?"

Blackie grunted a negative.

"Here's what it's sayin'," said Gillis as he puckered his lips: "O-o-o-o-oh! Where has your summer wages gone! Oh, where has your summer—"

Gillis dodged back as a boot came whizzing past his head.

Midsummer brought an epidemic of labor disturbances throughout the Province. A radical organization seized on a time when work was plentiful and labor scarce to spread their insidious propaganda through the camps. Railroad construction in the interior had been seriously interfered with, and in many cases there had been violence and bloodshed.

Two agitators arrived at the Summit Mill, and the next day several of the men—including Hand and Blackie—did not appear when the whistle blew. Gillis found them in Blackie's cabin in a half-drunken condition. That afternoon Renwick ordered the two strangers off the premises and discharged Hand.

Hoop-la begged successfully for lenience toward his erring pal. "You know how booze affects Blackie, Jack," he pleaded.

Donald became aware of a changed bearing on the part of many of the men. Sullenness had fallen upon them; discontent manifested itself, as well as insubordination. That afternoon spikes driven in the logs wreaked havoc with the saws and forced a partial shut-down.

A committee of four men waited on Renwick and presented an ultimatum. They demanded a heavy increase in wages, or they would call for an immediate cessation of work on the part of the men they represented. Renwick promptly refused. In 15 minutes every man in the mill except the clerical staff, the mechanics and the engineer, walked out. In the woods only Gillis' "redshirts" remained at work.

The strikers moved up the track and made camp on a point of land on the lake shore. That night the door of the commissary was prised from its hinges and a quantity of food stolen, and the night watchman put out a fire of incendiary origin.

Renwick, while returning from the power house, was shot at twice from ambush. He wired his resignation to Robert Rennie, and in terrified haste packed his belongings and left on the next train. An hour later the agent brought Donald a telegram:

"Donald McLean,
Summit Mill.

"You are promoted to position vacated by Renwick. Refuse strikers' demands. Ship at Squamish Oriental order white pine. Utmost importance lumber loaded within week. Use every means in power to keep plant operating.

"Robert Rennie."

He passed the message to Gillis. The big man turned and grasped Donald's hand in congratulation.

"We'll get that order out on time or bust," declared Gillis grimly.

Donald distributed firearms among his loyal men, and one-half the crew patrolled the plant while the others slept.

Donald had been up the greater part of the night, and at Gillis' earnest request he went to his cabin near midnight. As the door closed behind him, Connie, with her rifle resting in the hollow of her arm, rose silently from behind a tree in the darkness of the hillside and fitted noiselessly on moccasined feet from stump to stump. Unseen she reached the corner of Donald's cabin, where she sank to the ground with the soft, slow grace of a nestling bird.

The Cheakamus Mill, robbed of man-power, was forced to cease operations. At the Summit Mill work went on with such speed as in the situation Donald was able to induce in the men, who were on edge. To him it seemed that they were working on top of a powder mine that might go off at any moment. He discovered in himself a faculty to handle men and to raise them to a fever pitch of enthusiasm—not that

400,000 Women Report Benefit

by actual record

"Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

A questionnaire enclosed with every bottle of medicine has brought, to date, over 400,000 replies. The overwhelming majority—in fact, ninety-eight out of a hundred—says, "Yes." If this dependable medicine has helped so many women, isn't it reasonable to suppose that it will help you too? Get a bottle from your druggist today.

Lydia E. Pinkham's Vegetable Compound

and Cobourg, Ontario, Canada

the B. C. logger is a hard man to lift to the fighting point. His fight against great odds had gained the sympathy of the loyal—a sympathy and respect that money could not buy. Gillis' gang, with the exception of "Blackie," remained fervently faithful.

Toiling in the hot sun, nearly blinded by sweat, singing lustily, this gallant crew worked their 12 hours without a murmur of complaint. Donald lived on the job, ate on the job, and all day long he drove his men even as he drove himself. His rest consisted of such fitful snatches of sleep as he could steal between his rounds of the night guards.

The first move of the strikers was not of open violence. The haul-back on two of the donkeys broke without apparent reason; one of the big saws had been tampered with; Wilkinson reported two fires of incendiary origin, and also that an attempt to dynamite the power-house had been frustrated.

On the third morning Hand, at the head of a mob of 50 men, made a swift descent on the lumbering operations. It might have been successful if Donald had not expected something of this kind and set efficient watch.

The invaders came down the track

in a solid body, armed with cant-dog handles, pick axes and clubs, and thirsting for battle. At Donald's quick shout of warning his men dropped their tools and came on the run to form in a compact body behind him.

"Don't use your guns unless you have to," he warned, as he noticed several of them flash their revolvers.

Donald climbed quickly to the top of a large stump. In his left hand he held a stick of dynamite with fuse attached; in his right he held a match close to the dangling fuse. "Men!" he cried in a determined tone, "if you move forward one step I will throw this."

WINDOLITE

MADE IN ENGLAND

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

NOTICE

for Nominations for Election
Municipal District of Mountain View
No. 310

Municipal Elections 1929

PUBLIC NOTICE is hereby given that a meeting of the Electors of the Municipal District of Mountain View, No. 310, will be held at the Agricultural School, Olds, at one o'clock, p.m., on Saturday, the 16th day of February, 1929, for the discussion of the affairs of the district; and that from 3 o'clock p.m. to 4 o'clock p.m., on the same day and at the same place, nominations for the office of councillor will be received. Three Councillors are to be elected for electoral divisions 1, 2 and 3.

Given under my hand at Didsbury, this 4th day of February, 1929.
Hugh McLean, Returning Officer. 06-1c

Notice

A meeting of the electors of the Municipal District of Westerdale No. 311, will be held at 1 o'clock in the afternoon on Saturday the 16th day of February 1929, at the Westerdale Community Hall, for the discussion of municipal affairs, and at the same place and on the same day, the returning officer will receive nominations of candidates for the office of councillor from 3 o'clock p.m. to 4 o'clock p.m.

06-2c A. McNaughton, Sec.-Treas.

Notice

Notice is hereby given under Section 48 of the Domestic Animals Act (Municipalities) that one Black Steer was impounded in the pound kept by Geo. Dippel located on NE 1-4-22-31-2-5, on the 15th day of January, 1929, and that the said animal was sold on the 30th day of January, 1929 to Ezra Dippel, of Didsbury, Alta., and that the said animal may be redeemed by the owner or on his behalf within a period of 30 days from the publication of this notice in the Alberta Gazette, upon payment of all fees and costs to the municipality and the purchaser of said animal.

For information apply to the undersigned.

A. McNAUGHTON,
Sec.-Treas. M.D. 311.
Didsbury, Alta. 06-1c
